1 Introduction

These Patch Notes provide an overview of Validation Client for SAP Solutions 22.4 Patch02, including new features, delivery information, and supported platforms. OpenText recommends that you read these Patch Notes in conjunction with the documentation included with the software package. If any conflicts exist, the Patch Notes supersede the other documentation.

We also recommend that you check the OpenText Knowledge Center (<https://knowledge.opentext.com/>) for any patches or documentation updates that may have been posted after the initial release of Validation Client for SAP Solutions 22.4 Patch02.

Important Note Regarding Export Regulations

This software contains encryption technology that is classified for export from the United States under ECCN 5D002 in CCATS G070392. The software is subject to the U.S. Export Administration Regulations and other U.S. law, and may not be exported or re-exported to certain countries contrary to U.S. law. For more information on the U.S. Export Administration Regulations (EAR), 15. C:F:R. Part 730-774, and the Bureau of Export Administration ("BXA"), see the BXA homepage.

1.1 Patch Notes revision history

Release Notes Revision Number	Modification Date	Section Modified	Modifications
1.0	2023-01-27	First Release	

2 Installation, upgrade, and Patch Notes

This section provides additional installation and upgrade information, including related or third party product information and any required critical patches.

2.1 Patch 2

This patch must be applied to version 22.4 Validation Client for SAP Solutions. OpenText also recommends that you check the OpenText Knowledge Center (<https://knowledge.opentext.com/>) for any patches or documentation updates that may have been posted after this patch.

2.2 Patch installation

To install Patch 2:

1. Terminate the Validation Client on all Validation Client computer.
2. Install the Patch on all Validation Client computer.
3. Start Validation Clients.

3 Fixed issues

This section provides information about past issues that have been fixed in this patch.

3.1 Bug Fixes for Patch 2
